TEACHERS' FOREWORD

The selection of a proper word list for a spelling book has been reduced to almost scientific exactness. Children are no longer drilled for hours on words which, in the ordinary course of events, they will never use. They learn to spell the words they will actually **write,** and they really **learn** these words. Nothing less than one hundred percent efficiency is the aim of the McCall Speller.

Word Lists—The word lists of this speller, totaling slightly over four thousand, have been chosen with the utmost care. They were selected from eighteen recognized standard word lists. These lists were of two kinds: those made up of words in children's vocabularies; and those made up of words found in adult correspondence. In addition there have been included words from four lists compiled by the authors: two lists from five hundred letters that were written to department stores; one list of seven hundred letters from farmers' correspondence with a State Agricultural College; and a list compiled from the correspondence of a very active Parent-Teachers Association. The authors' investigations have been both varied and representative.

The words of the children's lists were tabulated to show: (1) in what grades they first occurred if they were found in children's compositions and (2) to what grades they were assigned if they were words from lists arranged by teachers. The words obtained from adult correspondence lists were tabulated so as to show their importance in each list. This was done by recording the percentage of times each word occurred as compared with the total number of words in the list. Words for this speller were then finally selected (after the above

tabulations had been made) upon the basis of the number of lists in which they occurred, a word being chosen only if a sufficiently large number of lists contained it to make its need for children a real one. In the case of a few words of doubtful value for a writing vocabulary, the words were included or excluded by checking with the Thorndike List. If the doubtful word had a credit number of ten or more in the Thorndike List (thus placing it among the first five thousand words) it was included in the McCall Speller.

Many compound words have been omitted where the parts of these words have been given separately. Few inflected forms or derivatives are included, but in the "Aids to Spelling" the pupils are given the information for making these forms, and the rules for deriving them are developed inductively. In the "Study Exercises" the pupils are given practice in forming the derivatives and making inflectional changes. This plan has obvious advantages. First, by omitting the inflected and derivative forms, a more comprehensive and helpful list of basic and root words is possible. Second, the pupils are prepared to derive the inflected forms and derivatives of **any** word, not merely those that are given in the speller. Thus the thinking process and pupil-activity develop self-dependence and aid in forming the habit of correct spelling.

Grading—The words have been distributed by grades on the basis of their occurrence in children's compositions. There were certain differences in grading among the various lists that were used. When there was a difference of only one grade, the word was put in the higher grade. If there was a difference of more than one grade, the word was put in the grade **between** the varying classifications.

Grouping—The grouping of the words within the grade is principally on a phonetic basis. There are some words in each grade which could not be grouped phonetically. These words

have been placed in groups by themselves in the lower part of the column for each week. Words are grouped together because of similarities of **sound** and **form.** There is a distinct relation between phonics and spelling, which in this book has been made a valuable aid in the teaching of spelling. The labor of learning to spell is greatly minimized by this plan of phonetic grouping. At no place in the book, however, has the principle of **grouping** taken precedence over the principle of **grading.** In other words, some words that might ordinarily be grouped together are found in different grades, because a study of children's compositions has shown that the words are first used in different grades. In the upper grades the grouping of the words is partly phonetic, and partly based on similar derivation. Such a method of grouping provides adequate and effective examples for the rules that are developed in the "Aids to Spelling."

Review Scheme—The review scheme in the McCall Speller has been worked out with unusual care. In every fourth week's work there is given a list of words to be reviewed or "re-taught." This is not an indiscriminate selection of words, nor is the attempt made to review **every** word. Extensive tests of all the words were given to school children. From these tests the exact degree of difficulty of every word was calculated and represented in percentages. The number of times a word is presented for re-teaching depends upon the percentage of its degree of difficulty. The following scheme is the basis for the selection of words for re-teaching or review.

Degree of Difficulty	Times Re-taught
Words below 20%	0
20% to 40%	1
40% to 60%	2
60% to 70%	3
Above 70%	4

In addition to their presentation in the lists, those words with a degree of difficulty of forty percent or more, are used in the "Dictation Review." A word that is to be re-taught is presented for re-teaching at least once in the grade in which it is first taught. Some words are necessarily carried over into the following grade for re-teaching. Oral spelling matches at frequent intervals give necessary training in oral spelling, and stimulate pupil interest.

Number of Words Per Week—The number of words to be learned each week varies with the grade. In the second grade there are fifteen words each week, while in the eighth grade there are twenty-seven. In a few places there will be found an extra word in the week's list. This is a review word, which has been placed in that list because there was not space enough in the review list for all the words that needed to be reviewed.

If the school year does not contain thirty-six weeks, the work for two review weeks can be taken in one week.

Test and Study Exercises—One of the newest and most valuable features of the book is the "Test and Study Exercises" that appear on each right hand page of grades four, five, six, seven and eight. The work on these right hand pages is **not** supplementary material, but relates definitely to the work on the preceding page, and is to be studied along with it.

The "Aids to Spelling" are very definite helps for the pupil, pointing out the peculiarities of certain words, calling his attention to the similarities in other words, and giving such general information regarding spelling as would be helpful to him. In addition to this, the "Aids to Spelling" offer a systematic study in the formation of inflected words, provide training in the use of the dictionary, and state the simple and more common rules of syllabication.

The "Study Exercises" which follow the "Aids to Spelling" give the pupil **practice** in working out the rules that he has learned regarding the derivation of words, the use of the dictionary, syllabication and the like. There is a "Study Exercise" for each week in grades four, five, six, seven and eight.

The "Dictation Review" constitutes the Study Exercise for every fourth week. The "Dictation Review" consists of ten sentences, each sentence containing one or more words that have appeared on the preceding page. The words for special attention in these sentences consist of: (1) homonyms; (2) words whose part of speech and meaning are determined by their accent, such as **im′port** and **import′**, and (3) words with a degree of difficulty of over forty percent. Since there are no "Dictation Reviews" in the first, second and third grades, the homonyms appearing in these grades have been included in sentences in the upper grades.

Specific directions are given regarding the **method of study,** and the use of the "Test and Study Exercises." The teacher should have the pupils read carefully at the beginning of the year the Pupils' Introduction, and then have one or more pupils summarize the content. Every pupil should fully understand the plan of procedure.

Pronunciation and Penmanship—The ideal of careful and correct pronunciation should always be held before the pupil, both by precept and example. If this is done, many spelling difficulties will be automatically eliminated. Children often have difficulty in joining certain letters, especially in joining a vowel with a consonant, and a little watchfulness and supervision on the part of the teacher will easily correct this difficulty.

Scoring—The pupil keeps his own record of his work on the Record Card which accompanies the speller. This Record Card shows the pupil's progress through the year, and gives

his score for his initial spelling (on Monday) and the score for his spelling of the words after instruction and study (on Friday). Special directions for the use of the Record Card appear on the back of the card.

By keeping a class record, spelling can be made a problem in which each member of the class cooperates. The teacher can draw on the blackboard (or on a large piece of cardboard) a record blank exactly like the one which is used in her grade. Instead of marking individual scores in the squares, on each Monday and Friday she should mark the **average** of the scores of the whole class. These Monday and Friday scores should be marked in the same way as they are on the individual pupil's Record Card. Such a record shows the weekly progress of the class as a whole and is an incentive to each pupil to make his own score contribute to a high class score.

Supplementary and Reference Material—At the end of the book will be found material that should be used for reference. This includes a fairly comprehensive list of abbreviations, a summary of the rules for spelling that are presented in the book, a key to diacritical markings, the ordinary rules of syllabication, a list of the homonyms found in the book, and a sample page from a dictionary. The pupils should become familiar with the Supplementary and Reference Material, and should form the habit of referring to it readily and often.

—THE AUTHORS

PUPILS' INTRODUCTION
How Your Book Was Made

Most boys and girls like some of their studies better than others because they see where they can really **use** what they learn. As a matter of fact we use **words** oftener than we do anything else. Every time we speak or write, or listen to someone speaking, or read a book, we are using **words.** So it is important that we learn how to spell words, to pronounce words, and to use words correctly.

Several men in various parts of the United States made a great collection of compositions written by boys and girls. They studied these very carefully, examining millions of words, and making a list of all the different words which the children used in writing. They found that each year the children added certain new words to their vocabulary, and used them in writing. In this way the men discovered when a word was first needed for use. They also found that by the time boys and girls reach the last year of grammar school they use about as many words **in their writing** as older people do.

This book gives you only those words that you will really need to write at one time or another. We all know what certain words mean when we read or speak them, yet we never need to write these words. As we grow older and learn about new things we need to use new words in writing. This book gives you these new words at the time when you first want to use them.

Another interesting fact about this book is that we know just how hard each word is. All the words in this book have been spelled by hundreds of school children, and a careful record has been kept of how

many times each word was misspelled. That is why we can tell you that you will have to look more closely at some words than at others. You will find some words are reviewed oftener than others; that is because we know they are more difficult.

How You Are To Use It

It is just as important for you to study in the **right way,** as it is for you to study the **right words.** You will find the **test-study method** described here very helpful. It will pay you to read the following directions many times during the year. They tell you what to do each day of the week.

MONDAY

1. Turn to the first list of words for your grade. The words "First Week" are above this list. If your teacher thinks this list is too long, study half the words in the list the first week. Study the other half the second week. If you are all good spellers, the teacher may ask you to study two lists in one week.

2. Look closely at the first word and listen carefully, while the teacher pronounces it. The teacher will show you how the word should be pronounced.

3. Pronounce the word just as soon as the teacher has finished pronouncing it. Look closely at the word all the time. Make your pronunciation just like the teachers'. If you do not pronounce the word correctly, you are not likely to spell it correctly. Right pronunciation is worth while for its own sake. Speak clearly. Pronounce each syllable distinctly. Always pronounce by syllables. This will help you in spelling the word. At the same time, look closely at the word to see whether there are any silent letters or anything else that might cause difficulty when you try to spell the word later.

4. Follow the same plan with each word in the list for the week.

5. Close your book. Take a blank sheet of paper. Write your name at the top. Write the figures 1, 2, 3 and so on down the left edge of the paper. Write as many numbers as there are words in the list for the week.

6. The teacher will use the first word in the list in a sentence, and then pronounce the word by itself. The word is used in a sentence to make sure that you will know its meaning. As soon as the teacher has pronounced the first word by itself, write the word after the 1 on your paper. Write plainly. Write carefully but without halting. Make no changes after the first writing. You will get no credit for a changed spelling

7. Trade papers with a neighboring pupil. Open your books. Mark your neighbor's paper. Compare the spelling with the words as they are in the book. Do nothing to the words which are spelled correctly. Check the words which are misspelled. Check the words where the first spelling has been changed. Check the words which are not written plainly enough for you to tell whether the spelling is right or wrong. Mark very carefully. Your neighbor expects you to show him what words he needs to study. While you are marking papers the teacher will move about the room to help you.

8. Write the total number of words spelled correctly beside the pupil's name and return the paper to its owner. Your teacher may ask those of you who made no errors to stand, then those who made one error, and so on. In order to find out which words are hardest for you, the teacher may ask those who missed the first word to raise their hands, then those who missed the second word, and so on.

9. On the front of your Record Card make a record of your own score on this first test. Your score is the total number of words spelled correctly. In making this record, follow the directions on the back of the Record Card. Put the card away until Friday.

10. Put away your paper where it will not get lost. You will need it Tuesday.

TUESDAY

1. Take out the spelling paper which you wrote on Monday. The purpose of the test on Monday was to show you what words you need to study and what words you do not need to study. It wastes your time to study words you already know how to spell. The words you missed on Monday make your "study list" for to-day. Pupils who spelled all the words correctly on Monday do not need to study any of these words now.

2. Open the spelling book and find the first word on your study list. The words next to it may be very much like it in their spelling. If so, notice the way in which they are alike.

3. (For pupils in grades four, five, six, seven and eight.) Turn to the opposite page and read carefully the "Aids to Spelling". Find the suggestions that apply to the list of words that you are studying for the week. These "Aids to Spelling" will be a real help to you, not only in learning the particular lesson for the week, but in learning how to form new words from the ones you have learned. Your teacher can help you with these "Aids to Spelling" by giving you other examples of the kind of words that are being discussed.

4. Look carefully at the word you are studying. Close your eyes and think how the word looks.

While doing this, pronounce the word softly to yourself. Remember to pronounce by syllables and to pronounce each syllable clearly. Such syllables as **il, el, al,** and **ol; em** and **im; en** and **in,** are not pronounced the same.

5. Open your eyes and look at the word again. Pronounce the word as you open your eyes so you can see whether you had the right picture of the word in your mind while your eyes were closed. Don't try to memorize **the word.** Think of the order in which the letters come in the word.

6. Write the word without looking at the book. Try to think of the word divided into syllables. Watch carefully for silent letters, double letters, different vowels having the same sound, and hard groups of letters.

7. Compare your spelling with the spelling in the book.

8. If you wrote the word correctly, write it two or three times. Write it more than three times if it seems to be a hard word. Pay close attention at each writing. Each time you write it, cover up what you wrote before, so you won't be copying.

9. If you made any mistakes in the first writing, do steps 2, 3, 4, 5 and 6 over again before you do step 7. This time watch closely the part of the word where you made your mistake. If you need to, do steps 2, 3, 4, 5 and 6 over and over until you write the word correctly.

10. Study in the same way the other words which you misspelled.

WEDNESDAY

1. Get ready for a second test on the list of words for the week. This test is for everybody. Write your name and number a blank paper as on Monday.

2. Write the words as you did on Monday. The teacher will use each word in a sentence and then pronounce it by itself.

3. Mark your neighbor's paper and write the score as on Monday, and then return the paper.

4. As on Monday, the teacher may ask those of you to stand who made no errors, then those who made one error and so on. Also the teacher may ask: "How many of you have learned to spell ten words which you could not spell before? Nine words? Eight words?" and so on. Notice how much better you did on Wednesday than on Monday.

5. If there is any time left in the spelling period, open your books and study the words you missed. The second list should be shorter than the first. If it is not, read again the directions for studying a word, which are given under "Tuesday".

6. Put your paper away where it will not get lost. You will need it Thursday.

THURSDAY

1. Study the words you missed on Wednesday. Make up your mind that you are going to make a perfect score when the last test comes on Friday. The directions for studying are given under "Tuesday".

2. (For pupils in grades four, five, six, seven and eight). Prepare the "Study Exercise" for that particular week, which is given on the opposite page. These study exercises give you practice in working out the rules for spelling that are given in the "Aids to Spelling". Always write out the "Study Exercises". Your teacher will ask you to read them before the class, or write them on the blackboard. Every fourth week you have a "Dictation Review", which you must be prepared to write when your teacher dictates the sentences to you. These sentences

contain many words which are pronounced like some other word, but differ in spelling and meaning. Such words are called "homonyms". None of the words in the "Dictation Review" are new to you, for you have had them all in previous spelling lessons.

FRIDAY

1. Prepare for a third test on the list of words for the week. This test is for everybody. Prepare as on Monday.
2. Take the test and mark the papers as on Monday.
3. Take out your Record Card and record your score. Follow the directions given on the back of the card. Compare your Friday score with your Monday score. Is your Friday score a perfect one?
4. If there are any misspelled words study them during the rest of the spelling period. Make a list of them and have some one test you on them until you can spell every one correctly.

EVERY DAY

1. Watch your spelling every day and every time you write. You have not learned how to spell a word until you spell it correctly in all your writing. Take pride in your spelling.
2. When you are not sure how to spell a word that you are writing, always look it up in the dictionary. You will find suggestions in this book on the use of the dictionary. Don't drill yourself in a wrong spelling of a word. If you do, you will have to unlearn the wrong spelling.
3. Remember that the right use of hyphens and apostrophes is as much a part of spelling as the right order of the letters. You are urged to pronounce and spell by syllables; this will show you how to

divide words when you are writing a composition and there is not enough room for all of a word at the end of a line.

4. There are a few simple rules which will help you with your spelling. Try to find out what these rules are before you come to them in your book. We have such rules because many words are spelled very much alike. Be on the lookout to see in what way these words are alike.

5. Keep a list of words which you often use and which you misspell. Some day, when you have spelled correctly all the words in your spelling book for the week, study the words in this extra list. How you are to study them is described under "Tuesday". After studying the words, wait at least a day without looking at them. Then ask your teacher or some pupil to test you on them. Place the figure 1 after each word that you spelled correctly on this test. Study all the words on your extra list again. Wait at least another day without looking at the words. Then ask to be tested once more. You may mark off of your list any word that you spelled correctly for the first time. Erase the figure 1 from any word you spelled the first time but missed the second time. It must start at zero again.

6. When you miss a word that is in the fourth column of words, it is **very serious.** Place it on your extra list. Study that word so that you will never miss it again.

7. When your teacher holds an oral spelling match you must be ready to spell every word, for you do not know when you will be called upon. At the end of the year, you might have a spelling match between your school and some other school.

Test and Study Exercises

Aids to Spelling

1. The plural of most nouns is formed by adding **s** or **es** to the singular.

2. A compound word is a word made up of two or more distinct words, used as one word in form and meaning (example—**railroad**).

3. A syllable or syllables added to the end of a word is called a **suffix.**

Study Exercises

1st Week—Make a list of the compound words on the preceding page, and separate them into the words of which they are made up.

2nd Week—Write the plurals of the following words: **giant, queen, skate, carpet, state, doctor, rate, plan** and **grate.**

3rd Week—Write sentences containing the following words: **pale, grate, peal, sale, heal, tale** and **male.**

Test and Study Exercises

Aids to Spelling

1. Look carefully at the following groups of words and tell how the second word is formed from the first.

hope	raise	come	have
hoping	raising	coming	having

The suffix in **hoping, raising, coming** and **having** is **ing,** which begins with a vowel. Final **e** is dropped before a suffix beginning with a vowel.

2. The words **won't** and **don't** are called **contractions.** They are formed from the words **will not** and **do not.** The apostrophe is used to show where a letter or letters have been omitted.

Study Exercises

5th Week—Write the plurals of **map, poem, strap, wagon, pearl, reader, spoon** and **dragon.**

6th Week—Find ten words on the preceding page that have a double consonant (example—**suffer**). What sound of the vowel precedes the double consonant?

7th Week—Write the words formed by adding **ing** to **take, make, save, drive** and **write.**

Dictation Review—8th Week

Test and Study Exercises

Aids to Spelling

1. Study the following groups of words, and tell how the second word is formed from the first.

love	care	care	nice
lovely	careful	careless	nicely

The suffixes **ly, ful** and **less** begin with consonants. Final **e** is kept before a suffix beginning with a consonant. The words **awful** and **truly** are two of the very few exceptions to this rule.

2. What is the vowel sound of the words **fame, lame** and **shame?** Words of one syllable having the long sound of the vowel, usually end in silent **e.**

Study Exercises

9th Week—Add **ful** and **less** to **hope**; add **ly** to **like** and **blind**; add **less** to **home.**

10th Week—Write the plurals of the following words: **frame, flame, mule, rule, mountain, figure, fountain** and **month.**

Test and Study Exercises

Aids to Spelling

1. Notice the **ck** in **bucket, check, pickle, tickle, mock, block, stock** and **knock.**

2. On page 124 of this book you will find a page from a dictionary. The words **egg** and **electrician** at the top of the page are called **guide words.** They are the first and last words defined on that page. Discuss with your teacher the purpose of the guide words.

Study Exercises

13th Week—Write the plurals of the following words: **dream, tide, kitten, tablet, hotel, pit, stream** and **mitten.**

14th Week—Arrange the following words alphabetically: **mock, soap, cord, able, wax, stock, knock** and **piano.**

15th Week—Add the suffixes **ed** and **ing** to the words **hatch, match, snatch, scratch, knock, dream** and **scream.**

Test and Study Exercises

Aids to Spelling

1. The following examples show three spellings of the sound of long **a**.

a, —cane, lane.
ea,—break, steak.
ei, —veil, vein.

2. Notice that the word **women,** the plural of **woman,** is formed exactly the same as **men,** the plural of **man.**

3. If you will think of **sure** and **cure** together, they will be easier to spell correctly.

Study Exercises

21st Week—Write sentences containing the following words: **break, lane, steak, mane, plane, pane** and **swept.**

22nd Week—Write the compound words on the preceding page, and tell from what words they are made up.

23rd Week—Write the plurals of **coil, blackboard, prank, tank, note, blade** and **orange.**

Test and Study Exercises

Aids to Spelling

1. Look carefully at the following groups, and tell how the second word is formed from the first.

skip	run
skipped	running

Both **skip** and **run** end in a single consonant preceded by a single vowel. The last consonant is called a final consonant. This final consonant is doubled before a suffix beginning with a vowel.

2. In the dictionary the words **to-day** and **to-night** are spelled with a hyphen. However, you will often find them written without a hyphen.

Study Exercises

25th Week—Form three adjectives by adding **able** to nouns.

26th Week—Find the following words in the dictionary, and write their definitions: **fresh, sift, sling, spider, ant** and **damp.**

27th Week—From what words have **being, loving, rising** and **easily** been formed?

Test and Study Exercises

Aids to Spelling

1. The final consonant in **read** is **d**. It follows two vowels, **ea,** therefore it is not doubled in **reading.** You remember in the words **skipped** and **running,** where the final consonant was doubled, it was preceded by only **one** vowel.

2. If you can see the **ought** in **fought, bought, brought, sought** and **thought,** it will be easy to spell all of these words.

3. **Mr.** and **Mrs.** are **abbreviations.** Abbreviations are always followed by a period.

Study Exercises

29th Week—What is the suffix in **mostly** and **nearly?** Write three other words that are formed in this way.

30th Week—Write sentences using the plurals of the following words: **thought, fork, snake, sofa, drum, heart, finger** and **cloak.**

Test and Study Exercises

Aids to Spelling

1. The word **ruler** comes from **rule.** The final **e** is dropped before the suffix **er;** otherwise there would be two **e's.**
2. Notice the two **f's** in **puff** and **cuff.** The letter **f** at the end of monosyllables, and standing immediately after a single vowel, is generally doubled.
3. The following examples show two ways of spelling the same sound.

ou,—mouth, south.
ow,—frown, brown.

4. The suffix **ess,** as in **princess,** denotes feminine form.

Study Exercises

33rd Week—Add **ed** and **ing** to the following verbs: **frown, drown, clip, grip, rip** and **number.**

34th Week—Add the suffix **er** to **rove, lose** and **write.**

35th Week—Arrange the following words in alphabetical order: **crown, child, clip, coast, chop, crop, church, cuff, corner** and **children.**

Dictation Review—36th Week

1. The guests were all very merry and comfortable.
2. The tale that the bald man told got the prize.
3. They put a sail on the ferry boat.

Test and Study Exercises

Aids to Spelling

1. A syllable or syllables added at the beginning of a word is called a **prefix. Pre** means **before.**

2. In the word **basement** final **e** is retained before the suffix **ment** which begins with a consonant.

3. The correct pronunciation of words is indicated in the dictionary by **diacritical marks,** whose meaning is shown by the examples given at the bottom of each page of the dictionary. (See page 124.)

Study Exercises

1st Week—Write the following words and indicate their pronunciation as shown in the dictionary: **tail, base, fail, fort** and **repeat.**

2nd Week—Add **ed** and **ing** to the following words: **rebuke, report, recite, respect, rejoice, record** and **remind.**

3rd Week—Make a list of the words on the preceding page that are formed by the addition of suffixes. Underline the suffixes.

Test and Study Exercises

Aids to Spelling

1. Look carefully at the following groups of words, and notice how the second word is formed from the first.

beauty	plenty
beautiful	plentiful

When final **y** is preceded by a consonant, the **y** is changed to **i** when adding a suffix beginning with a consonant.

2. In the words **mighty, healthy, greedy, guilty, worthy, windy, cloudy** and **jerky,** the suffix **y** has been added to the nouns **might, health** and the rest, to form adjectives.

Study Exercises

5th Week—Write sentences containing the following words: **gait, boost, strait, between, plentiful, await** and **engage.**

6th Week—Add the prefix **dis** to the following words: **comfort, cover, agree** and **honest.**

7th Week—Add **y** to **rain, puff, soap** and **dirt;** add **ly** to **state, queen, main** and **safe.**

SUPPLEMENTARY AND REFERENCE MATERIAL

Summary of Definitions and Rules

Definitions

A syllable or syllables added at the beginning of a word is called a prefix.

A syllable or syllables added to the end of a word is called a suffix.

A compound word is made up of two or more distinct words, used as one word in form and meaning.

A derivative is a word that has been built up from another word by the addition of a suffix or a prefix, or both.

Rules

The formation of plurals

1. The plural of most nouns is formed by adding **s** to the singular, but nouns ending with **s, x, z, ch** or **sh,** add **es** to the singular.
2. Nouns ending in **y** preceded by a consonant, change **y** to **i** and add **es** to form the plural.
3. The plural of some nouns ending in **f** or **fe** is formed by changing **f** or **fe** to **v** and adding **es.**

The addition of suffixes

1. Final **e** is dropped before a suffix beginning with a vowel.
2. Final **e** is kept before a suffix beginning with a consonant.
3. Final **y** is changed to **i** before any suffix that does not begin with **i.**
4. Monosyllables or words accented on the last syllable, ending in a single consonant preceded

by a single vowel, or a vowel after **qu**, double the final consonant before a suffix beginning with a vowel.

Miscellaneous

1. Abbreviations are always followed by a period.
2. The letters **f** and **l**, at the end of monosyllables, and standing immediately after a single vowel, are generally doubled; as in **all, bell, cuff, puff.**
3. In general, when words spelled the same are used as different parts of speech, verbs are accented on the last syllable, and nouns and adjectives on the first syllable.
4. "**I** before **e**,
   Except after **c**,
   Or when sounded as **a**,
   As in **neighbor** and **weigh.**"
5. Proper names and adjectives formed from proper names begin with capital letters.

Rules of Syllabication

On this page there are a few important rules of syllabication. By the use of these rules you should be able to syllabicate any words that you write. Consult the dictionary when in doubt. It is essential that one know the principles of syllabication, for words must be divided into their correct syllables when they are carried over from one line to the next.

1. Every syllable must contain a sounded vowel.

2. Two vowels standing side by side are in the same syllable when sounded together; as **ear ly.**

3. When two vowels standing side by side are sounded separately, the syllable division is between the vowels; as **li on.**

4. Prefixes and suffixes are separated from their roots when the prefix or suffix contains a sounded vowel; as **nice ly.**

5. When one consonant stands between two vowels, it generally joins the vowel which follows; as **ba con;** except when the first vowel is short, then the consonant remains with it; as **giv en.**

6. If two consonants that are alike come between two vowels, the syllable division is between the two consonants; as **ap ple.**

7. When two or more consonants stand between two vowels, as many as can be pronounced smoothly go with the second vowel; as **pro gram.**

8. When two or more consonants come between two sounded vowels, one or more, but not the whole of them, is joined to the preceding vowel, whether this vowel be long or short; as **par ty.**
